BIOGRAPHICAL DATA FORM

The Society of Woman Geographers is an organization of accomplished women whose common link is the intellectual and scientific exploration of some area or aspect of the earth's phenomena, including human adaptations. Their achievements and goals underwrite a commitment to the advancement of geographical understanding in its broadest sense through their shared knowledge and skill, permanent records of their work and outreach to others through education.

This form comprises an historical record for our archives. List activities chronologically, with most recent first. **PLEASE TYPE OR PRINT.**
